

REMARKS/ARGUMENTS

Claims 1-5,10,13-14,17 and 19-26 remain in this application.

Claims 6-9,11-12,15-16 and 18 have been cancelled.

New claims 27-38 have been added.

In view of the examiner's earlier restriction requirement, applicant retains the right to present claims 6-9,11-12,15-16 and 18 in a divisional application.

Independent claims 1, 14, and 26 have been amended to clarify the scope and breadth of the claimed subject matter.

New independent claims 27, 35, and 38 have been added to further clarify the scope and breadth of the claimed subject matter. It is believed that these new claims include limitations very similar to previous claims 1,14, and 26 which were indicated to be allowable.

In response to the Office Action of **November 21, 2009**, Applicant requests continued examination of this application for patent pursuant to 37 C.F.R. 1.114.

SUMMARY

In light of the foregoing remarks and amendment to the claims, it is respectfully submitted that the Examiner will now find the claims of the application allowable. Favorable reconsideration of the application is courteously requested. Should there be any remaining issues which can be resolved via an Examiner's Amendment; the Examiner is urged to call the undersigned in order to expedite the prosecution of this application.

The Commissioner for Patents is hereby authorized to charge any deficiency in any fees due with the filing of this paper or credit any overpayments in any fees paid on the filing to Deposit Account No. 13-0439.

Respectfully submitted,
